

MISES CAPITAL CORPORATION

Mises Capital Enters Farm-in Letter of Intent

For Immediate Release

March 27, 2008

Calgary, Alberta – Mises Capital Corporation (TSXV:MPP) (“**Mises**” or the “**Company**”) is pleased to announce that it has entered into a non binding letter of intent (“LOI”) with Brahma Resources Ltd., a private oil & gas company wholly owned and controlled by a director of Mises, to earn out a 50% working interest in two oil & gas properties located in the Lloydminster area of Saskatchewan.

Under the terms of the LOI, the Company will have a minimum drilling commitment of two wells (one well minimum on each property), with an option to drill additional wells, at its sole discretion, within 90 days subsequent to final rig release on the second well of the two well drilling commitment.

Under the farm-in, Mises will be commencing a heavy oil, field delineation program targeting multiple zones on the two properties, which consist, in aggregate, of 600 acres located immediately adjacent to producing acreage.

The proposed farm-in is subject to reasonable industry conditions, including the negotiation of a formal agreement, the approval of the Board of Directors of the Company and any applicable regulatory approvals. Subject to these conditions, Mises anticipates that drilling operations under the farm-in will commence after spring break up.

Mises also wishes to announce that its new address for its head office is now located at Suite 1000 - 888-3rd St. S.W. Calgary, AB T2P 5C5.

The TSX Venture Exchange has not reviewed and does not accept responsibility for the adequacy and accuracy of this release.

This press release contains certain forward-looking statements within the meaning of applicable securities law. Forward-looking statements are frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. The Company cannot assure that actual results will be consistent with these forward looking statements. They are made as of the date hereof and are subject to change and the Company assumes no obligation to revise or update them to reflect new circumstances, except as required by law. Prospective investors should not place undue reliance on forward looking statements. These factors include the inherent risks involved in the exploration for and development of crude oil and natural gas properties, the uncertainties involved in interpreting drilling results and other geological and geophysical data, fluctuating energy prices, the possibility of cost overruns or unanticipated costs or delays and other uncertainties associated with the oil and gas industry. Other risk factors could include risks associated with

negotiating with foreign governments as well as country risk associated with conducting international activities, and other factors, many of which are beyond the control of the Company.
