

**Saha Petroleum  
to Acquire Heavy Oil Assets**

**For Immediate Release**

**July 9, 2009**

CALGARY, ALBERTA – Saha Petroleum Ltd. (TSX Venture Exchange: SPZ) ("**Saha**" or the "**Corporation**") announces that it has entered into a definitive asset purchase agreement with a public company (the "**Vendor**") to acquire petroleum and natural gas interests, and accompanying shut-in heavy oil wells, comprised of 280 gross acres (200 net acres APO), for the cash purchase price of \$200,000, subject to normal closing adjustments. The heavy oil assets are located in the Lloydminster area of eastern Alberta.

Upon closing of the acquisition, anticipated to occur in mid-July, Saha intends to re-activate the shut-in wells. The cash consideration required to purchase the assets will be from Saha's existing working capital.

**About Saha Petroleum Ltd.**

Saha Petroleum Ltd. is a junior heavy oil producer from assets located in the provinces of Saskatchewan and Alberta. Saha's common shares trade on the TSX Venture Exchange under the symbol SPZ.

**Reader Advisory**

Certain information in this press release regarding the acquisition of heavy oil assets may constitute forward-looking statement under applicable securities laws and necessarily involve certain risks. Specifically, the Corporation may not proceed with the aforementioned acquisition, or may not complete the reactivation of the shut-in wells which could have a negative impact on the business of the Corporation and its ability to maintain or expand its production. As a consequence, actual results may differ materially from those anticipated in the forward-looking statements.
