

Saha Petroleum Closes Sale of Rush Lake and Golden Lake Assets

For Immediate Release

June 29, 2009

CALGARY, ALBERTA – Saha Petroleum Ltd. (TSX Venture Exchange: SPZ) ("**Saha**" or the "**Corporation**") confirmed that it has closed its previously announced sale with an arm's length private company of its oil and natural gas interests in 5 heavy oil wells and 2 suspended wells, all located in western Saskatchewan (the "**Asset Sale**"). In connection with the Asset Sale, Saha obtained the written consent of shareholders holding in excess of 50% of the outstanding common shares. Exchange final acceptance is subject to Saha filing final materials therewith.

Saha will retain heavy oil production from its 4 wells in the Maidstone area of western Saskatchewan and from Saha's Wildmere well, drilled in the 4th quarter of 2008 and located in the Lloyminster area of eastern Alberta. The Asset Sale has allowed Saha to reduce its total debt from over \$2 million to \$284,000.

Saha has received conditional Exchange acceptance to issue common shares for the purpose of completely eliminating the remaining \$284,000 of indebtedness. As previously announced, Saha is proposing to issue an aggregate of 5,680,000 common shares at a price of \$0.05 per share to Brahma Resources Ltd., a private oil & gas company owned and controlled by David Forrest, President and CEO of Saha, to extinguish such debt. Closing of this transaction was conditional upon the closing of the Asset Sale, and subject to final Exchange acceptance such sale, and is expected to occur in early July, 2009. The common shares issued to Brahma will be subject to applicable Exchange hold periods and the hold periods required under any applicable securities laws.
